

DISCLAIMER E-CHARGING STATION/CONVENTIONAL POWER CONNECTION

I hereby confirm that I am charging my electrically powered vehicle on my own responsibility at your premises

charge without using a designated charging station (using a conventional power connection provided by Projekt Spielberg GmbH & Co KG).

in use of the e-charging station provided by Projekt Spielberg GmbH & Co KG.

The nominal frequency of the voltage is 50 Hz, the nominal voltage is 230V(single-phase) or 400V(three-phase) and can be seen at the e-charging station.

I undertake to use the e-charging station / the power connection provided in such a way that neither Projekt Spielberg GmbH & Co KG, myself nor third parties suffer any damage and neither myself nor third parties are endangered.

Accordingly, I undertake in particular

- to ensure a safe connection of the electrically operated vehicle with the e-charging station/the power connection provided;
- to use an undamaged cable with suitable and safe plugs;
- to park the electrically powered vehicle in such a way that the connection to the e-charging station/power connection provided is as short and safe as possible;
- that electrically powered vehicles of all types that are not registered for road use and those that do not have official registration or equivalent liability insurance maintain a minimum distance of 6 meters from buildings;
- not to install a charging station (wallbox) myself;
- to ensure that third parties are not hindered by the charging cable/charging process;
- to be independently responsible for compliance with the applicable technical regulations regarding the electrically powered vehicle and the charging cable;
- to comply with all electronic protection regulations.

I assume sole responsibility for any damage to the electrically operated vehicle, persons, buildings or other incidents related to the use of the e-charging station/the power connection provided and/or resulting therefrom and undertake to fully indemnify and hold Projekt Spielberg GmbH & Co KG harmless - also from third-party claims. As the owner/driver of an electrically powered vehicle, I am aware of all possible risks.
